

John Percy was my agent in sale of my house in Broadmead, which he pursued actively to attract maximum exposure, client interest and prospects or sale. Additionally, this was complicated by my hospitalization and surgery, during which he went out of his way in matters to help organize preparation for sale and of putting the house on the market. In this he was a friend as well as a constantly active agent, obtaining and seeing a good offer through to final sale.

John Percy is a very active hands-on agent who worked constantly through a difficult market to achieve offers, through to a successful contract and sale and I highly recommend him as an agent in sale or purchase of a home. He will serve with full and undivided attention with unstinted effort to fruition; an excellent agent.

Sincerely,

Gerry Stanford
