

TO WHOM IT MAY CONCERN

After interviewing three realtors, we chose John Percy. He was a good choice. He referred us to someone who helped us with hauling and gardening. As we are both seniors, we needed that assistance. John helped us to stage the house. He has a good eye and has great familiarity with the market. The online presentation was excellent as he employed a professional photographer and someone who measured the rooms accurately. John's description of the house was also well-written.

Most important to us, we had an excellent offer to purchase within 48 hours of the listing. The offer exceeded the asking price and we were very happy with the price we got for the house.

We found John to be attentive, professional and knowledgeable throughout the process. We have no hesitation in recommending him to future clients.
